Food and Nutrition Security (earlier NFSM)

I. NFSM:

1. Introduction:

- The National Food Security Mission (NFSM) has been implemented in the state as Centrally Sponsored Schemes with 60:40 sharing pattern from GoI and the State Govt. respectively.

2. Objectives:

- Increasing production of Rice, Pulses, Maize, Nutricereals-Millets and Cotton through area expansion and productivity enhancement in a sustainable manner in the identified districts by conduct of Cluster demonstrations, trainings and exposure visits to the farmers.
- Restoring soil fertility and productivity at the individual farm level through RBKs by promoting latest improved and production technologies like seed, INM, IPM, Dr.YSR Polambadis, input use efficiency, resource conservation technologies along with the capacity building of the farmers to enhancing farm profits to restore confidence among the farmers.

3. **Components of Food and Nutrition Security:** The Scheme is implementing in different districts under different components. The component and district wise details are as follows.

Sl. No	Component	Criteria for Selection of districts	Districts covered	
			No.of dts	Name of districts
1.	Rice	Districts with area more than 50,000 ha and yield below state average yields are selected	5	Srikakulam, Vizianagaram, Parvathipuram Manyam, Anakapalli & ASR
2.	Coarse Cereals - Maize	Districts covering 70% of the total coarse cereals area in the state are selected	7	Srikakulum, Vizianagaram, Eluru, Guntur, Bapatla, Sri Satya Sai and Nandyal.
3.	Cotton	Major growing districts in the state	7	NTR, Guntur, Palnadu, Prakasam, Anantapur, Nandyal and Kurnool
4.	Nutricereals -Millets	All districts in the state	26	All 26 districts in the state
5.	Pulses	All districts in the state	26	All 26 districts in the state
6.	NMEO-OS	All districts in the state	26	All 26 districts in the state

5. Activities under NFSM Scheme:

a) **Cluster Demonstrations:** cluster demos are planned in 20 ha. area for transfer of technology on best management practices and latest production technologies to the farming community at RBK level under different crops.

Rate of assistance

For Rice & Pulses – Rs.9000/ha.
For Maize & Nutricereals – Rs.6000/ha.
For Commercial Crops-Cotton the incentive of Rs.8000/- for ICM & Intercropping Cotton.& Rs.10000/- for High density planting system.

b) **Distribution of Certified Seed and production of Certified Seed**

Distribution of Certified Seeds through d-krishi app, under general distribution & Cluster demos on 50% Subsidy.

c) **Soil and Plant Protection Management** (INM & IPM) :

Distribution of critical inputs like Micronutrients/ Bio-Agents/ Bio-Fertilizers /PP chemicals/Weedicides is planned through DBT mode.

Rate of assistance.

Micronutrients/ Bio-Agents /PP chemicals/Weedicides – Rs.500/ha.(or) 50% of the cost whichever is less.
Bio-Fertilizers - Rs.300/ha.(or) 50% of the cost whichever is less.

d) **Flexi-Components :** Distribution of Green Manure seed like Daincha, Sun Hemp & Pillipesara under NFSM-Rice and organization of Dr.YSR Polambadi Programmes under NFSM- Pulses.

Schemes implemented under NFSM with the assistance of RKVY:

i) Crop Diversification Programme(CDP)-Tobacco
ii) Crop Diversification Programme(CDP) for replacing Paddy area under bore wells with Pulses & Oilseeds
iii) Promotion of Millets-Millet Mission Project
iv) Promotion of Maize cultivation in area around grain based distilleries

i) Crop Diversification Programme(CDP)-Tobacco:

- The state is implementing CDP for replacing Tobacco farming with alternate crops like Pulses, Millets & Maize in districts of **East Godavari, Eluru, Bapatla, Prakasam and SPSR Nellore districts.**
- Organization of Cluster demos & trainings under CDP with a financial assistance of Rs.9000/- per ha under pulses and Rs.6000/- per ha under Millets & Maize as per NFSM norms and guidelines 2022-23

ii) Crop Diversification Programme(CDP)- for replacing Paddy area under bore wells with Pulses & Oilseeds:

- In order to increase the production and achieve self sufficiency in Pulses & oilseeds in the state, the state has taken up a special Programme namely CDP for replacing Paddy area under bore wells with Pulses & Oilseeds from 2022-23 to 2026-27 in 24 districts of the state except Bapatla & Guntur districts.
- Organization of Cluster demos & trainings under CDP with a financial assistance of Rs.9000/- per ha under pulses as per NFSM norms and guidelines.

iii) Promotion of Millets: Ragi, Korra & other Millets:

- The Special Project" Promotion of Millets Ragi, Korra& other millets is approved under RKVY Scheme to implement from Rabi, 2022-23 with financial outlay of Rs.1200.00 Lakhs.
- The main component of this scheme is organization of Cluster Demos for transfer of improved technologies with the supply of Critical Inputs on 50% Subsidy.
- An area of 8700 ha is targeted for promotion of Ragi & other Millets with budget allocation of Rs.1200.00 Lakhs.

iv) Promotion of Maize cultivation in area around grain based distilleries:

- A Special project on **"Promotion of Maize cultivation in area around grain based Distilleries"** was approved under RKVY scheme with financial outlay of Rs.138.00 lakhs.
- The districts having Grain based Distilleries are selected for implementing this Project in 9 districts of **Krishna, NTR, Guntur, Bapatla, Prakasam, Chittoor, YSR, Kurnool & Nandyal** were selected under this scheme for organization of Cluster Demos in an area of 2300 ha.

National Mission on Edible Oil-Oilseeds(NMEO-OS):

Introduction:

- The NMEO-OS Scheme has been started from the current year i.e.2022-23 onwards subsumed from NFSM-OS Scheme.
- National Mission on Edible oil- Oilseeds (NMEO-OS) are being implemented in the state as Centrally Sponsored Schemes with 60:40 sharing pattern from GoI and the State Govt. respectively.

Objectives:

- Increasing production of Oilseeds through area expansion and productivity enhancement in a sustainable manner in the identified districts by conduct of Cluster demonstrations, trainings and exposure visits to the farmers.
- Restoring soil fertility and productivity at the individual farm level through RBKs by promoting latest improved and production technologies like seed, INM, IPM, Dr.YSR Polambadis, input use efficiency, resource conservation technologies along with the capacity building of the farmers to enhancing farm profits to restore confidence among the farmers.
- To augment the availability of vegetable oils and to reduce the import of edible oils by increasing the production and productivity of vegetable oils sourced from Oilseeds.

Activities under NMEO-OS scheme:

i) Seed Component:

Production of Foundation seed, Production and Distribution of Certified Seed are taken up of different Oilseed crops(Mainly Groundnut Crop) under this Component.

ii) Transfer Of Technology (TOT) Programmes:

- Cluster Demonstrations programmes of different Oilseed Crops namely Groundnut, Sesamum, Castor, Sunflower, Niger and Mustard are organized at RBK Level.
- IPM Demonstrations/ FFS (Dr.YSR Polambadis) are also organized under this component.

ii) Production Inputs:

- Distribution of critical inputs like Gypsum/Micronutrients/ Bio-Agents/ Bio-Fertilisers/ Farm implements are planned under this component through DBT mode.

iii) Flexi-Components:

- Distribution of Diesel Pumpsets and Organisation of Exposure visits (within the district, outside district and outside state) taken up under this component.

iv) Project Management Expenses(PME):

- Remuneration of TSG Staff, Attending Seminars/ Workshops/Meeting, Hiring of Vehicles and Contingency (as per NFSM Norms) come under this component

v) Minikits Distribution:

- Minikits of new varieties have been distributed to farmers in different districts of the state on free of cost (100% subsidy).
