GOVERNMENT OF ANDHRA PRADESH

ABSTRACT

Civil Supplies – De-Centralized Procurement – Policy for Kharif Marketing Season 2025-26 – Orders – Issued.

==========

CONSUMER AFFAIRS, FOOD & CIVIL SUPPLIES (CS.II) DEPARTMENT

G.O.MS.No. 23 Dated: 22-10-2025

Read the following:-

1. A.P. Rice Procurement (Levy) Order, 1984.
2. MoU with GOI on De-Centralized Procurement communicated with GOI lr.No.4(3)/2015-Py.I, dt.17.09.2020 from the Under Secretary to GOI, Dept. of Food & Public Distribution, Ministry of Consumer Affairs, Food & Public Distribution, New Delhi.
3. G.O.Ms.No.9 CAF & CS (CS.I) Dept., dated 19.10.2021.
4. Minutes of Meeting of Group of Ministers held on 27.10.2021
5. No 6-1/2025-MSP.ES, Dated:02-06-2025 Government of India, Ministry of Agriculture and Farmer Welfare, Department of Agriculture & Farmers Welfare Economics, Statistics and Evaluation Division (MSP Unit).
6. Minutes of the Meeting with all Food Secretaries of DCP states by the Secretary, DFPD,GoI, New Delhi Dated:19-09-2025

***

1. **Levy System:** Rice required for Public Distribution and Other Welfare Schemes was procured through mill levy from the Rice Millers as per the AP Rice Procurement (levy) Order,1984. Levy system was continued up to KMS 2014-15.

2. **Decentralized Procurement System:** Decentralized Procurement (DCP) has been taken up in the State w.e.f. 1st October 2015 to ensure payment of Minimum Support Price (MSP) for paddy to the farmers and to avoid exploitation of farmers by any intermediaries and acquire self-sufficiency in procuring rice for Targeted Public Distribution System (TPDS) and Other Welfare Schemes (OWS) in the state.

3. **MoU with Government of India:** A Memorandum of Understanding (MoU) was executed with the Government of India on Decentralized Procurement (DCP) Scheme. As per the DCP scheme the State Government / its agencies shall procure paddy from the farmers, custom mill the paddy and

retain the resultant raw rice to the extent required for TPDS and OWS as per allocation made by the Central Government and handover the excess stocks to the Food Corporation of India (FCI) for central pool operations.

4. Govt. of AP has been taking several initiatives to benefit the farmers. In this context, Government has constituted a Group of Ministers (GoM) to suggest measures for improvement of paddy procurement process. The GoM has recommended the following measures for improvement of the Paddy procurement operations:

   a. All necessary steps shall be taken to ensure payment of 100% MSP to farmers.

   b. **Paddy Procurement Centers (PPCs)** shall be established at all Paddy growing districts across the State for the easy access of the farmers. Procurement Support Agencies (PSAs) shall be engaged to run the paddy procurement operations by PPCs at RSKs.

   c. **Integration with Agriculture Department:** Procurement of paddy shall be done on the basis of e-Panta data of Agriculture Department. All paddy growing farmers (including tenants)shall be registered in e-Panta portal by Rythu Sahaya Kendras Assistants before commencement of paddy procurement.

   d. If quality of paddy is in adherence to Fair Average Quality (FAQ) norms, paddy shall be procured immediately. If paddy quality is not in conformity with FAQ norms, technical staff shall sensitize and request farmers to bring the paddy within the FAQ norms by drying and cleaning etc., Suitable value cuts may be introduced if the paddy brought by the farmers is found to be below FAQ norms.

   e. Aadhar based payment shall be made to farmers based on e-Panta data shared by Agriculture Department.

5. **State Level Procurement Agencies:** The Andhra Pradesh State Civil Supplies Corporation Limited (APSCSCL) and Andhra Pradesh State Co-operative Marketing Federation

Ltd. (AP MARKFED) shall function as State Level Procurement Agencies for the season KMS 2025-26. AP MARKFED is appointed as an additional agency for paddy procurement for KMS 2025-26(G.O.Rt.No.60,dated:21-10-2025). The AP MARKFED in association with the APSCSCL would be responsible for the paddy procurement operations in the entire State of Andhra Pradesh, APSCSCL shall be responsible for custom milling and distribution of Rice under various schemes.

6. **District Procurement Committee**: District Collectors shall constitute a District Procurement Committee with the Joint Collector as Chairman with District Level Officials of all connected departments, namely Agriculture, Marketing, Cooperative, Civil Supplies, Transport, Rural Development (DRDA), Tribal Welfare (ITDA), I&PR, Warehousing Agencies (CWC, SWC), Procurement Agencies (FCI, APSCSCL) and also Sub-Collectors/RDOs as members to coordinate and decide on all the activities and monitor the procurement related activities on a day-to-day basis.

7. **Custom Milling and delivery of Custom Milled Rice (CMR):** The Rice Millers shall commence milling of paddy received from the PPCs within a week from the date and time of receipt and shall complete custom milling of paddy and deliver the resultant rice either as raw rice or boiled rice to the FCI within time frame prescribed by the Government or the APSCSCL for the paddy handed over by the APSCSCL/ AP MARKFED. It shall be mandatory that the Rice Millers return CMR within three months of receipt of paddy stock but not later than prescribed time limit of Government of India.
8. APSCSCL shall maintain truck wise paddy issue entries and monitor them for receipt of proportionate CMR within the permitted time.

9. **Paddy Procurement Portal**: All Rice Millers engaged for paddy procurement operations should be mandatorily registered on the AP Paddy Procurement Portal.

10. **Self-certification and physical assessment**: Rice Mills designated for milling within the State shall be registered online only after self-certification by the rice mills and

physical assessment of their infrastructure and installed capacities by the supervisory staff.

11. **Custom Milling Operations**: The Rice Millers shall undertake custom milling of paddy procured by the State Government / its Agencies (APSCSCL & AP MARKFFED), as per the agreed terms and conditions and all the rates and norms fixed by the Government o India as stipulated in Clause9(1) of the A.P.State Procurement (Levy) Order, 1984.

12. **Allocation of Paddy for Custom Milling**: The allocation of paddy to mills for custom milling shall be made only upto 75% of their milling capacity by considering time as three months in a season (Kharif/Rabi) as per instructions by Government of India.

13. **Electronic Bank Guarantee**: Paddy shall be allotted to the rice mills for custom milling and delivery of CMR strictly as mentioned above. The District Civil Supplies Manager (DCSM), APSCSCL shall enter MOU with the designated rice mills in the prescribed format along with Bank Guarantees at Milling Capacity vs. Paddy Cost in 1:2 ratio. The Bank Guarantee shall be submitted in the electronic format alone as EBG (Electronic Bank Guarantee) so that it is integrated with the paddy procurement portal for validation.

14. **Sortex and Blending Facilities**: Paddy shall be allotted to the Rice Millers having Sortex and Fortified Rice Kernel Blending machinery only. Each Rice Miller shall get +F endorsement from FSSAI to mark +F symbol in blue colour on CMR gunny bag and rexin slip.

15. **Fortification of Rice:** All the rice millers shall install FRK dynamic blending machinery which is weight based for blending of fortified rice kernels with CMR during custom milling stage in 1:100 ratio, as per the GOI guidelines. They should get registered in the Fortrace portal and upload the CoA accordingly. The availability of blending facility for fortified rice in every rice mill is mandatory. The implementation of the Fortified Rice Kernel Management System (FRQMS) is mandated for all FRK production and distribution activities. This system aims to streamline

operations, ensure accurate record-keeping, and enhance traceability across the supply chain.

16. **Drier Facilities:** Mills having drier facilities shall be given priority in the allocation of paddy for delivery of custom milled rice.

17. The APSCSCL is directed to capture Geo Co-ordinates of the defaulted rice mill premises for the past years and the same rice mill premises is blocked for participation in the CMR operations until dues including penalty to APSCSCL is cleared.

18. As per the instructions of the Government of India to implement the following New Minimum Threshold Parameters.
    1. Capturing of the Bio-metrics of farmers/nominee of farmers during paddy procurement.
    2. Tracking of the Electricity Consumption of the Rice Mills.
    3. Tracking of the Paddy and CMR Transportation Vehicles from loading point (Farmgate/RSK) to unloading point (Rice Mills) and rice from mills to godowns.

    Joint Collectors should implement the above New Minimum Threshold Parameters duly tracking of the electricity consumption of the Rice Mills and submission of the ATRs and Tracking of the paddy and CMR transportation vehicles through GPS devices.

19. All the raw rice consignments shall be subjected to another test i.e., mixed indicator method for determination of age of milled raw rice stocks. As per the instructions in vogue, a sample shall be drawn from the offered consignment and analyzed in terms of FAQ specifications of GoI. If it is found conforming to the prescribed specifications, the samples would be tested through mixed indicator method. In case the color of the reagent comes out to be green/avocado green, the consignment would be accepted and any other color like yellow, yellow orange & orange would be rejected terming the stock as 'Not freshly Milled'.

20. Non-trading rice mills shall only be given paddy allocation in the usual circumstances.

21. Trading rice mills should be given paddy only as a last resort if there are no non-trading mills with prior permission of VC&MD, APSCSCL. In that case, the trading rice mill should maintain separate registers and accounts, and preferably separate storage for privately purchased paddy/rice, State Pool paddy/CMR and Central pool paddy/CMR shall be stored in a countable manner.

22. Trading Rice Mills shall not be allowed to mill / process privately purchased paddy and its products until completion of CMR delivery to APSCSCL / FCI unless they have separate Milling Units under one firm with separate Electricity Service connections.

23. The rice mills which are trading rice/ broken rice in their rice mill privately should not be considered at any circumstances for custom milling operations.

24. **Tagging of Rice Mills to RSKs**: The district procurement authorities shall tag the PPCs at RSKs for shifting of paddy procured to the nearest rice mills to the extent possible. However, the farmer shall have liberty to choose the rice mill for paddy procurement subject to ceiling on payment of paddy transport charges to the lowest applicable slab in that area as per slab system (0-8 Kms, 9-20 Kms, 21-40 Kms, 41-80 Kms, above 80 Kms). If any mill tagged beyond 40 KMs, proper justification needs to be presented.

25. **Electricity Consumption:** The milling capacity should be corroborated with the average electricity consumption for the full year of KMS 2024-25. The monthly electricity consumption data for KMS 2024-25 shall be integrated in the AP Paddy Procurement Portal by linking it with DISCOMs such as EPDCL, CPDCL & SPDCL so that real time information is available on the paddy milled vs. electricity consumed. The same data shall be used for transmission to Central Food Procurement Portal (CFPP).

26. **Blacklisting of Rice Mills for discrepancies in electricity consumption**: The Rice mills who are found with discrepancies in electricity consumption shall be duly blacklisted from custom milling with APSCSCL. They shall not be allowed to participate in the CMR operations for FIVE YEARS besides taking other punitive action.

27. **Minimum Support Price:** The Minimum Support Prices (MSP) for FAQ paddy fixed by Government of India for the KMS 2025-26 are as follows.

    1. **Common: Rs.2,369/- per quintal.**

    2. **Grade-A Rs.2,389/- per quintal.**

28. **Uniform Specifications for Paddy and Rice**: The Uniform specifications for paddy and rice fixed by the Government of India are detailed in Annexure-I &II.

29. **Open Market Purchase Operations**: The rice millers may also purchase FAQ paddy at a price not less than the MSP and they shall invariably make payment to the farmers directly to the bank accounts of farmers through NEFT/RTGS or A/c payee cheques.

30. **Maintenance of A and B Registers:** The rice millers shall maintain the details of paddy purchased, rice produced, sold, balance stock available in the mills etc., duly computerized in real time in form 'A' and 'B' registers prescribed in the A.P. Rice Procurement (Levy) Order, 1984.

31. **Online Updation of A and B Registers:** The millers shall mandatorily update the A & B Registers in the paddy procurement portal on daily basis and make all information available online for verification. Failure to update such information online in the paddy procurement portal shall attract penal provisions and non-payment of milling charges for CMR rice.

32. **Supply of Gunnies by Rice Mills for Paddy Procurement**: Paddy allotment quantity for custom milling shall be linked with milling capacity of the mill which will be subjected to

the pre-condition that the miller is duty bound to supply proportionate number of once used gunnies in advance at the localities specified by district procurement authorities. The District Rice Millers association shall be responsible for mobilizing the Gunnies from the Rice Mills and monitor the positioning of the gunnies at designated locations. Non-supply or not supplying the gunnies in time will automatically result in reduction of the custom milling paddy target and further action of barring such mills from custom milling operations.

33. **Quality of Gunnies:** The custodian officer shall be held equally responsible as the rice miller concerned about the quality of gunnies being supplied to PPCs or Mandal Level Godowns by the respective rice millers. Random quality checks of the once used gunny bags supplied for storing paddy shall be conducted by the Revenue / Civil Supplies staff or whosoever is assigned for this task by the district procurement authorities at the mill point before dispatch by the PSA staff after their delivery at respective RSK/Mandal Level Godown. In case, the Rice Miller is providing gunny bags to the PPCs, the miller shall ensure clear identification of the rice mill like mill code or number unique to Rice Mill is present on each gunny bag.

34. **Recycling of PDS Rice and other Unfair Trade Practices**: The Rice Millers shall not purchase and recycle the PDS rice for delivery as Custom Milled Rice (CMR). CMR shall not be used or cause to be used for sale in the open market in the guise of non PDS rice/super fine rice or export to the other countries either by reconditioning or changing the bags, etc., Violation of this condition shall attract the meaning of Mischief under Section 318 of the Bharatiya Nyaya Sanhita (BNS) and the miller shall be liable for criminal action by imposing Prevention of Damage to Public Property Act, 1984, and Andhra Pradesh Revenue Recovery Act, 1864, to recover the CMR dues equivalent penal value besides black listing for FIVE years. Bank Guarantee will be forfeited if any mill found to engage in offences like recycling.

35. **Enforcement Activities**: The District Collectors shall ensure that the enforcement officials and any other teams

constituted for the purpose of monitoring paddy procurement and milling operations shall inspect the rice mills periodically to ensure that the paddy handed over for custom milling is stored under proper conditions, and other aspects such as milling of paddy, delivery of CMR, balance stock available etc., and to take immediate action if any discrepancy is noticed. If any shortage in stocks is found, the miller is liable to pay one and half time (1 ½) the value of CMR in shortage and also liable for criminal action for criminal breach of trust and misappropriation of Govt. stocks under Section 318 of the Bharatiya Nyaya Sanhita (BNS).

36. Section 420 of the Indian Penal Code (IPC) was replaced by Section 318 of the Bharatiya Nyaya Sanhita (BNS) on July 1, 2024. Section 420 dealt with cheating, forgery, fraud, and dishonestly inducing the delivery of property and the maximum punishment was seven years in prison and a fine. Section318 of the BNS also covers cheating and deceit, and the maximum punishment is seven years in prison or a fine.

37. The enforcement officials shall inspect the rice mills to verify the electricity consumption, working period of the mills, rice produced, 'A' and 'B' registers etc., so as to find out whether any PDS rice was recycled / misused by the Rice Millers and take necessary action as per the provisions of the APRP(Levy) Order, 1984 and the Andhra Pradesh State Targeted Public Distribution System (Control) Order, 2018 in respect of recycling, diversion and other wise mis-utilization of the PDS rice.

38. **Physical Verifications**: State government officials along with FCI officials, shall conduct joint physical verification of a sufficiently large random sample of mills immediately after the conclusion of the procurement season in the State to verify whether the procurement figures tally with the physical stock of paddy available in the State. This accounting shall be frozen as soon as the procurement season ends, and no change should be made to it. Rice Millers shall ensure that the stocks of paddy/CMR within the mill premises are always available in countable condition for accurate physical verification.

39. **Rejection of Consignments:** Rice Millers shall not mix freshly milled Raw Rice with "Not freshly Milled Raw Rice" for delivery of CMR. Such CMR consignments shall be rejected. If any CMR consignment found with even one bag of "Not freshly Milled Raw Rice" or freshly milled Raw Rice mixed with "Not freshly Milled Raw Rice" the consignment will be rejected. Rice Millers whose three CMR consignments are rejected based on Rice Age Test/ Mixed indicator Method in a season (Kharif /Rabi), shall be blacklisted for that season.

40. **Undertaking and Counter-Signing for Guarantee Purposes**: The rice miller shall submit an undertaking about conformity to fair practices and non- participation in any PDS rice related recycling. Such agreement shall be counter-signed by two other rice millers who are also participating in the paddy procurement operations, and who shall stand guarantee to the rice miller who is submitting the undertaking.

41. **Complaints & Grievance Redressal**: If any complaint is lodged against a Rice Mill for imposing value cuts or seeking extra quantity of paddy over and above what is mentioned in the truck chit during procurement from farmers, appropriate action shall be taken on the concerned Rice Mill after a thorough enquiry. If the complaint is found to be genuine in nature and is held proven, the said Rice Mill shall not be allowed to participate in the CMR operations for FIVE YEARS besides taking other punitive action.

42. **Default in CMR Delivery**: If the rice miller fails to deliver the CMR within the stipulated time, after giving notice to the defaulted rice miller, the corporation is at liberty to invoke the Bank Guarantee submitted by him duly following the guidelines issued vide GO MS. No.18 of Consumer Affairs, Food and Civil Supplies (CS-I) Department Dated:27-07-2023 apart from levying penalty to recover the due amount and the loss caused to the APSCSCL/Government.

43. Penalty that is to be imposed on the defaulting dealer/Miller shall be 0.5 times of the worth of Custom

Milling Rice (CMR) quantity due against the said default miller and such penalty shall always be paid by the defaulter in the form of a money deposit or by way of a demand draft taken in favour of APSCSCL in addition to the value of actual CMR defaulted quantity.

44. Any miller aggrieved by the orders of the Joint Collector & Ex-Officio Executive Director, APSCSCL against non-delivery of Custom Milling Rice (CMR) deliveries, or delay in delivery of Custom Milling Rice (CMR) by the defaulting Millers, consequent to Bank Guarantee (BG) invocation and levy of penalty towards the loss caused, may prefer an appeal to the District Collector, within thirty (30) days from the date of receipt of orders of the Joint Collector & Ex-Officio Executive Director, APSCSCL.

45. The appeal shall be admitted for hearing before the District Collector, only when it is accompanied with the mandatory certificate of confirmation issued by the Joint Collector of the concerned District regarding the physical availability of paddy/rice quantities that are due against any defaulting miller.

46. **Monitoring and Supervision**: District Collectors, Collectors (CS) and other district procuring authorities shall review the entire process of paddy procurement and custom milling operations regularly and take all necessary actions to ensure smooth procurement operations.

47. The Government of Andhra Pradesh has ordered to distribute good quality sortex fortified rice in the State with improved specifications. Therefore, rice milers shall deliver two types of CMR as Sortex Fortified CMR and Non- Sortex Fortified CMR if any.

48. The FAQ Specifications prescribed by GoI for **Non-Sortex** CMR to be delivered to the FCI / CSC if required are (annexure-I).

S. No	Refractions		Maximum Limit (%)	
			Grade 'A'	Common
1	Brokens *	Raw	25.0	25.0

		Parboiled/Single parboiled rice	16.0	16.0
2	Foreign Matter **	Raw/Parboiled/Single parboiled rice	0.5	0.5
3	Damaged # / Slightly Damaged grains	Raw	3.0	3.0
		Parboiled / Single parboiled rice	4.0	4.0
4	Discolored Grains	Raw	3.0	3.0
		Parboiled / Single parboiled rice	5.0	5.0
5	Chalky Grains	Raw	5.0	5.0
6	Red Grains	Raw/Parboiled/ Single parboiled rice	3.0	3.0
7	Admixture of Lower Class	Raw/Parboiled/ Single parboiled rice	6.0	--
8	Dehusked Grains	Raw/Parboiled/ Single parboiled rice	13.0	13.0
9	Moisture content @	Raw/Parboiled/ Single parboiled rice	14.0	14.0
10	FRK (Fortified Rice Kernels) ##	In case of procurement of fortified rice stock, 1%@@ of FRK (w/w) should be blended with normal rice stock.		

*Not more than 1% by weight shall be small brokens.

** Not more than **0.20**% by weight shall be mineral matter and not more than 0.10% by weight shall be impurities of animal origin.

Including pinpoint damaged grains.

@ Rice (both Raw & Parboiled/Single Parboiled) can be procured with moisture content upto maximum limit of 15% with value cut. There will be no value cut upto 14%. Between 14% to 15% moisture, value cut will be applicable at the rate of full value.

Blending ratio may vary from a range 0.90 to 1.20% by weight in fortified rice subject to satisfying the prescribed micro-nutrients level as per the Certificate of Analysis (CoA) of FRK

@@ Blending ratio may vary from a range 0.9 to 1.20%o by weight in fortified rice subject to satisfying the prescribed micronutrient level as per the CoA of FRK.

49. The FAQ Specifications prescribed for **Sortex Quality rice to be delivered to the APSCSCL for PDS/ OWS** are as per Annexure-III .

S. No	Refractions	Sortex quality with improved Specifications	
		Grade A	Common
1	Brokens*	15.00	15.00
2	Foreign Matter	0.00	0.00
3	Damaged #/Slightly Damaged &Discolored grains	1.50	1.50
4	Chalky Grains	1.00	1.00
5	Red Grains	3.00	3.00
6	Admixture of lower Class	6.00	0.00
7	De-husked Grains	10.00	10.00
8	Moisture Content @	14.00	14.00
9	FRK (Fortified Rice Kernel) ##	0.90 % to 1.20%	

- Not more than 0.60% by weight shall be small brokens.
- # Excluding Pin Point damaged grains but not more than FAQ limit of damaged grains.
- Rice can be procured with moisture content up to a maximum limit of 15% with value cut. There will be no value cut up to 14%. Between 14% to 15% moisture, value cut will be applicable at the rate of full value.
- ## Blending ratio may vary from a range 0.90 to 1.20% by weight in fortified rice subject to satisfying the prescribed micro-nutrients level as per the CoA of FRK

50. **<u>Incentive to Sortex Millers</u>**:

- As per GO Ms No.15, dtd.15.12.2019, compensation at Rs.600/-(Rupees six hundred only) per MT will be paid to the rice millers towards sortex charges for the CMR delivered to APSCSCL without any Government subsidy towards electricity.

- Further, APSCSCL will reimburse Rs.500/-(Rupees five hundred only) against every MT for reduction of brokens from 25% to 15%.

51. **Delivery of CMR with 10% Brokens:**

a. Out Turn Ratio:

i. The OTR for delivery of CMR with 10% Brokens to FCI and Storage of 15% Brokens at mill premises is 67%.

ii. Rice Miller has to deliver 29MTs (Twenty Nine) of CMR with 10% Brokens to FCI under 10% Brokens and resultant 15% Brokens should be stored at mill premises.

b. Packaging, Stack Identification and Labelling:

i. Segregated broken rice shall be packed in used HDPE/PP Bags.

ii. Color-coded Rexin Slips shall be used on CMR bag to distinguish category of rice:
   - White Slip with Black Font for CMR with 10% broken
   - White Slip with Blue Slip (KMS 2025–26 color code) for CMR with 25% broken.

iii. Separate stack-wise identification must be maintained by Rice miller for CMR with 10% and CMR with 25% broken rice.

iv. Applicable colour stitching and stenciling as decided by DFPD each marketing season, shall be permitted to maintain its distinct identity of CMR with 10% broken and with 25% broken in mill premises.

v. As a pilot initiative, Andhra Pradesh will affix pre-printed stitchable QR coded tags on new jute bag for filling CMR with 10% broken rice.

c. Handling and Storage of resultant Broken Rice:

i. The Rice Miller should identify a covered storage space for storing broken rice at their own mill premises, with clear demarcation.

ii. Bags must be:

a. Clearly labelled with lot number, miller's name, and address

b. Stitched using blue-colored thread as per KMS 2025-26 colour coding.

iii. Maximum size of a broken rice stack shall be 174 MT. Proper spacing must be maintained for inspection access.

d. Inspections:

i. CMR with10% broken and the resultant broken rice shall conform to uniform specifications issued by the DFPD.

ii. All procedures related to inspection, sampling and analysis shall be followed as per the latest guidelines issued by DFPD and FCI Headquarters.

iii. The procuring agency executing milling agreement with miller shall inspect 100% of broken rice stocks. Inspection to be completed within 7 days of receipt for readiness of inspection letter from mills.

iv. FCI shall conduct minimum 10% inspections of the Broken Rice.

v. The inspection of broken rice shall be done concurrently by the State Government and FCI and both inspections shall be finished within 10 days put together.

e. Sale through e-auction and Lifting Modalities of broken rice from mill premises:

i. Lifting of CMR with 10% broken rice by FCI would be done as per the existing practice for CMR with upto 25% broken rice.

ii. Broken rice sale through pre-auction to be conducted by FCI preferably on weekly basis.

iii. After the acceptance of all quality parameters, the Rice Miller must declare the available quantity of broken rice and its storage duration duly supported by their book balance.
iv. After the acceptance of the stock, the Rice Miller is responsible for maintaining the quality and saleable condition of the stock up to 2 cycles of pre-auction.
v. All records regarding quantities, inspections, quality certificates, and financial transactions to be maintained by FCI for audit and monitoring.
vi. Bidder/Parties are allowed to inspect the stored broken rice before/after tender.
vii. FCI will conduct e-auction of broken rice within two weeks after acceptance of lot by FCI (Quality Control).

f. Responsibility of Rice Miller:

i. Rice Miller is responsible for the quality and quantity of the broken rice during storage with them along with preservation.
ii. Rice Miller shall provide an undertaking certifying the quality and quantity of broken rice conforming to GOI specifications.
iii. Rice Miller shall have to replace the Beyond Rejection Limit(BRL) stocks if found at any stage.
iv. No storage charges shall be paid during the period from detection of BRL to its re-verification post replacement.
v. In case of any stock found beyond FSSAI limits, the exiting guidelines, as revised from time to time, shall be applicable for the disposal of such stock on the risk and cost of Rice Miller/Agent.
vi. Rice Miller shall facilitate inspection of broken rice by FCI/State Agencies till its auction from miller's premises.
vii. The miller shall be required to deliver the CMR with 10% broken and resultant broken rice grain separately.

g. Additional charges (as approved by GOI) for milling, storage and packaging shall be paid to the millers via State Government or its agencies.

h. Strict Compliance and Dispute Resolution:

i. The Regional Offices of FCI and concerned State agencies shall ensure strict compliance during the procurement, storage, inspection and disposal of broken rice under this scheme

ii. Any disputes related to the quality and quantity of broken rice during disposal shall be resolved by a joint team comprising representatives from:

- Food Corporation of India (FCI)
- State Government and Procuring Agency concerned

52. **<u>Physical Verification of un-milled Paddy:</u>**

i. PV of 100% paddy at the end of procurement period.

- The PV of 100% paddy procured shall be conducted by the respective State Government immediately after end of the procurement period. The PV Report shall be submitted positively within 30 days from the date of end of procurement period.

- It shall be the responsibility of the miller and of the State Government to ensure that the stock of paddy/CMR within the mill premises and storage godowns are always available in countable position for accurate physical verification.

- In case the un-milled paddy/CMR is found to be in uncountable position during the PV, a period of 3 days will be allowed to Rice Miller for stacking the paddy/CMR in a countable position. If the condition is not met during re-visit by the PV team, the paddy in uncountable position shall not be considered into account for PV and will be deducted from the total quantity of the paddy claimed.

- The GoI/FCI team will check and verify the data mentioned in the PV report submitted by the State Govt., in respect of **at least 2% mills& 5% storage points** selected in a manner to ensure that at least one mill is selected from each district having mill(s)/storage point(s) so as to ensure geographical coverage of the entire state.

ii. PV in relation to proposals for extension of milling/CMR delivery period:

- In the event of requirement of extension of milling period/CMR delivery period, the State Government shall conduct PV of the remaining stock before submitting the proposal to DFPD.

- State Govt. shall forward the proposal for extension in the requisite format, as outlined in this Department's guidelines dated 27.09.2024, not later than 30 days before the expiry of approved milling/CMR delivery period, to the concerned General Manager, FCI of the region. On receipt of request for extension of milling/CMR Delivery period, JPV of at least 10% of randomly selected mills holding un-milled paddy shall be carried out jointly by the State Government and Regional Office, FCI except in States where already JPV is conducted for 100% mills as per the State Government policy. In exceptional cases, where the delays are not attributing to the State Government, JPV need not be carried out.

- Upon submission of request for extension, the system will generate the list of 10% mills to be inspected. The JPV should be initiated immediately and completed within 7 days. The JPV report of the un-milled paddy at the respective individual mill shall be submitted through JPV mobile app developed for the specific purpose, from the spot itself. The consolidated PV report of the State shall be submitted by the State Govt. on Central Food Procurement Portal (CFPP)/relevant module within three (03) working days of the completion of JPV at all identified mills/storage points.

- Within five (05) working days from the receipt of the JPV report from State Govt., General Manager, FCI of concerned region shall forward the extension request, along with Part-B of the format and the findings of JPV, to FCI HQ. Subsequently, within three (03) working days, FCI HQ shall forward the request, duly complete in all respect, to DFPD along with its clear comments/recommendations with the approval of competent authority.

iii. Criteria for categorization and random selection of Mills for JPV

a. The exercise for categorization and selection of mills has been structured to ensure a random and impartial process, driven by system-generated data, thereby eliminating discretion and enhancing transparency.

b. The selection of 10% mills for JPV will be based on the quantity of un-milled paddy available with each mill as reflected in the CFPP/relevant module and CFSP. Therefore, it is essential that data on CFPP and CFSP is accurately updated before any application for extension is submitted. The selection criteria are detailed below.

c. All mills/storage points having un-milled paddy in a revenue district will be arranged in descending order of the quantity of un-milled paddy. The list will be further categorized into three parts, as below:

Category-A: Top 30% of mills/storage points in the list
Category-B: Between 30% to 60% of mills/storage points in the list
Category-C: Remaining 40% of the mills/storage points in the list

d. It will be ensured that **6%, 3% and 1%** of the total number of mills/storage points are randomly selected for JPV from Category - A, B and C, respectively, subject to a minimum of one (1) mill/storage point from each category. In case of total number of such

mills/storage points being 3 or less, JPV is to be carried out in all the mills/storage points.

e. The selection of the 10% mills/storage points for JPV will be done randomly by the system itself on CFPP/relevant module based on the criteria mentioned above.

f. In addition to the system-generated list of the 10% mills/storage point, two (2) additional mills/storage points will be selected from each of the remaining districts having mills but not included in the system-generated list. These 2 mills/storage points will include - one mill/storage point with the highest quantity of un-milled paddy in the district, and one mill/storage point with the lowest quantity of un-milled paddy in the district. This approach aims to ensure geographical coverage of whole of the state during the JPV.

g. It should be ensured that mill-wise data on quantity of un-milled paddy available with the mills, for the current season is available on SFPP duly integrated with CFPP/relevant module through APIs. Besides, following updated data, mill wise for each season should also be made available on CFPP/relevant module:
   i. Total quantity of paddy allocated and stored, mill-wise.
   ii. Total quantity of CMR delivered.
   iii. Installed milling capacity vis-à-vis capacity utilized for Govt. milling.
   iv. Average electricity consumption for each month.
   v. Declaration from miller of month-wise paddy received from private sources as well as from the State procuring agencies.

h. The state shall transfer mill-wise CMR delivery data regularly to the CFPP portal through API integration, or on the relevant module/portal. Accordingly, necessary action may be taken by the States in

consultation with the NIC to capture mill-wise data of CMR delivered in the State.

i. The PV should cover various related aspects including the following:

- It may be specified that JPV team will prepare stack-wise counting sheet according to stack plan.
- Break open of paddy stacks may only be undertaken if any kind of irregularity is noticed/apprehended, however, contents of bags in a stack may be randomly checked.
- Average weight per bag of paddy after taking bags randomly from various stacks of the un-milled paddy to verify standard filling of paddy as per prevailing practice in the State.
- Verification of corresponding total quantity of un-milled paddy/CMR rice not delivered, available in the mill's premises/storage point.
- In case the stocks are lying in heaps or loose, the PV team is authorized to get 100% weighment of such stocks for which the Centre Incharge will make arrangement of necessary labour.
- The un-milled paddy available should be of same variety allotted to the mill by the Govt. agencies.
- Sample check of the age of stock of milled rice available (to be delivered to FCI/SWC), if any at the mill's premises.
- The PV report must contain information separately about the paddy allocated by the State Government agencies / FCI and private stocks of Common/Grade A paddy or Basmati and other varieties lying in the mill premises during PV.
- If, on the date of inspection/PV, there is any discrepancy between the quantity of un-milled paddy recorded in the CFPP and the actual stock available, the inspecting officer should exercise due diligence to ascertain the reasons for the variation.

ii. The JPV report is required to be submitted on the JPV mobile app developed for the purpose. The list of points on which mobile app requires information is annexed (Annexure IV).

iii. Videography of the entire process of the Joint Physical Verification, on each occasion be undertaken and made promptly available to the concerned Regional Office of FCI. The PV report should be accompanied with Geo-tagged photos of boundary wall, premises, rice room, and the un-milled stored paddy along with a brief video

53. Detailed Standard Operating Procedure (SOP) will be communicated.

54. The Government or the Commissioner of Civil Supplies may issue further guidelines or orders from time to time to ensure uninterrupted procurement of paddy and delivery of CMR as per requirement.

A copy of this order is available at https://goir.ap.gov.in.in

UNIFORM SPECIFICATION OF ALL VARIETIES OF **PADDY**
(KMS 2025-26)

(Lr.No.8-1/2022-S&I, dt.16.09.2025 from the Joint Commissioner (S&R),DFPD, M/o CAF&PD, GOI, New Delhi)

Paddy shall be in sound merchantable condition, dry, clean, uniform in colour and size of grains, and free from moulds, weevils, obnoxious smell, *Argemone maxicana, Lathyrus sativus* (Khesari) and admixture of deleterious substances. All Paddy varieties are classified into two Grades i.e. 'A' and 'Common' based on length and breadth ratio (L:B). If the ratio is greater than & equal to 2.5, then it is classified as Grade 'A' and if ratio is less than 2.5, then it is classified as 'Common' will be classified into Grade 'A' and Common.

Schedule of specification

Sl. No.	**Refractions**	**Maximum Limits (%)**
1.	Foreign matter a) Inorganic b) Organic	 1.0 1.0
2.	Damaged, discolored, Sprouted and weevilled grains	5.0*
3.	Immature, Shrunken and shriveled grains	3.0
4.	Admixture of lower class	6.0
5.	Moisture content	17.0

* Damaged, sprouted and weevilled grains should not exceed 4%.

N.B.

(i)The definitions of the above refractions and method of analysis are to be followed as per BIS 'Method of analysis for foodgrains' Nos. IS: 4333 (Part-I) 1996, IS: 4333 (Part-II), 2002 and 'Terminology for foodgrains' IS: 2813 – 1995, as amended from time to time.

(ii) The method of sampling is to be followed as per BIS method for sampling of Cereals and Pulses IS: 14818-2000 as amended from time to time.

(iii) Within the overall limit of 1.0% for organic foreign matter, poisonous seeds shall not exceed 0.5% of which Dhatura and Akra seeds (*Vicia* species) not to exceed 0.025% and 0.2% respectively.

UNIFORM SPECIFICATIONS FOR **GRADE 'A' & COMMON RICE**

(KMS 2025-26)

Rice shall be in sound merchantable condition, sweet, dry, clean, wholesome, of good food value, uniform in colour and size of grains and free from moulds, weevils, obnoxious smell, admixture of unwholesome poisonous substances, *Argemone maxicana*and *Lathyrus sativus* (Khesari) in any form, or colouring agents and all impurities except to the extent in the schedule below. It shall also conform to prescribed norms under Food Safety & Standards Act,2006 / Rules prescribed here under

SCHEDULE OF SPECIFICATION

S.N	Refractions		Maximum Limit (%)	
			Grade 'A'	Common
1	Brokens *	Raw	25.0	25.0
		Parboiled/Single parboiled rice	16.0	16.0
2	Foreign Matter **	Raw/Parboiled/Single parboiled rice	0.5	0.5
3	Damaged # / Slightly Damaged grains	Raw	3.0	3.0
		Parboiled / Single parboiled rice	4.0	4.0
4	Discolored Grains	Raw	3.0	3.0
		Parboiled / Single parboiled rice	5.0	5.0
5	Chalky Grains	Raw	5.0	5.0
6	Red Grains	Raw/Parboiled/ Single parboiled rice	3.0	3.0
7	Admixture of Lower Class	Raw/Parboiled/ Single parboiled rice	6.0	--
8	Dehusked Grains	Raw/Parboiled/ Single parboiled rice	13.0	13.0
9	Moisture content @	Raw/Parboiled/ Single parboiled rice	14.0	14.0
10	FRK (Fortified Rice Kernels)	In case of procurement of fortified rice stock, 1%@@ of FRK (w/w) should be blended with normal rice stock.		

* Not more than 1% by weight shall be small brokens.

** Not more than **0.20%** by weight shall be mineral matter and not

more than 0.10% by weight shall be impurities of animal origin.

Including pinpoint damaged grains.

@ Rice (both Raw & Parboiled/Single Parboiled) can be procured with moisture content upto maximum limit of 15% with value cut. There will be no value cut upto 14%. Between 14% to 15% moisture, value cut will be applicable at the rate of full value.

@@ Blending ratio may vary from a range 0.9 to 1.20%o by weight in fortified rice subject to satisfying the prescribed micronutrient level as per the CoA of FRK.

NOTES APPLICABLE TO THE SPECIFICATION OF GRADE 'A' AND COMMON VARIETIES OF RICE

1. The definition of the above refractions and method of analysis are to be followed as given in Bureau of Indian Standard "Method of analysis for Foodgrains" No's IS: 4333 (Part-I) 1996 and IS: 4333 (Part - II) 2002" Terminology for Foodgrains" IS: 2813 - 1995 as amended from time to time. De-husked grains are rice kernels whole or broken which have more than ¼ of the surface area of the kernel covered with the bran and determined as follows: -

   ANALYSIS PROCEDURE:

   Take 5 grams of rice (sound head rice and brokens) in a petri dish (80X70 mm). Dip the grains in about 20 ml. of Methylene Blue solution (0.05%by weight in distilled water) and allow stand to for about one minute. Decant the Methylene Blue solution. Give a swirl wash with about 20 ml of dilute hydrochloric acid (5% solution by volume in distilled water). Give a swirl wash with water and pour about 20 ml. of Metanil Yellow solution (0.05% by weight in distilled water) on the blue stained grains and allow to stand for about one minute. Decant the effluent and wash with fresh water twice. Keep the stained grains under fresh water and count the dehusked grains. Count the total number of grains in 5 grams of sample under analysis. Three brokens are counted as one whole grain.

CALCULATIONS:

$$\text{Percentage of Dehusked grains} = \frac{N \times 100}{W}$$

Where N = Number of dehusked grains in 5 grams of sample

W = Total grains in 5 grams of sample.

2. The Method of sampling is to be followed as given in Bureau of Indian Standard "Method of sampling of Cereals and Pulses" No IS: 14818- 2000 as amended from time to time.

3. Brokens less than $1/8^{th}$ of the size of full kernels will be treated as organic foreign matter. For determination of the size of the brokens average length of the principal class of rice should be taken into account.

4. Inorganic foreign matter shall not exceed **0.20**% in any lot, if it is more, the stocks should be cleaned and brought within the limit. Kernels or pieces of kernels having mud sticking on surface of rice, shall be treated as Inorganic foreign matter.

5. In case of rice prepared by pressure parboiling technique, it will be ensured that correct process of parboiling is adopted i.e., pressure applied, the time for which pressure is applied, proper gelatinization, aeration and drying before milling are adequate so that the colour and cooking time of parboiled rice are good and free from encrustation of the grains.

STANDARDS OF RICE FOR ISSUE TO STATE GOVERNMENTS/UT ADMINISTRATIONS FOR DISTRIBUTION UNDER TPDS AND OTHER WEFARE SCHEMES.

Guidelines for issue/disposal of wheat and rice have been issued vide Department letter No.8-2/98-DR III dated 27.01.1998 and 13.11.1998. Gist of standards of rice for issue to State/UTs for distribution under TPDS and OWSs alongwith updated illustrations for KMS 2025-26 is as under:

1. Ready issuable stocks are fit for human consumption which should confirm the standards of Food Safety and Standards Act, and Rule framed there under.

2. Rice stocks falling within A, B & C categories (categorization is based on damaged and discolored grains) conforming to food safety norms and free from insect infestation are ready stocks. Ready stocks may be issued under TPDS and OWSs provided the refractions in respect of broken grains, chalky grains, red grains and de-husked grains are upto 20% in excess of the uniform specifications.

Illustration of maximum permissible parameters of ready to issue stocks of rice based on uniform specifications for KMS 2018-19 is as under:

S. No	Refractions		Maximum limit (%) as per uniform specifications for Grade 'A' & Common	Maximum permissible limit (%) for Grade 'A' & Common
1	Damaged/Slightly damaged/Pinpoint Damaged Grains	Raw	3	5
		Parboiled/Single parboiled rice	4	5
2	Discoloured grains	Raw	3	7
		Parboiled / Single parboiled rice	5	7
3	Broken	Raw	25	30
		Parboiled / Single parboiled rice	16	19
4	Chalky Grains	Raw	5	5
5	Red Grains	Raw/Parboiled/ Single parboiled rice	3	4
6	Dehusked Grains	Raw/Parboiled/ Single parboiled rice	13	16
7	Foreign Matter	Raw/Parboiled/ Single parboiled rice	0.5	1.0
8	FRK (Fortified Rice Kernels)	In case of procurement of fortified rice stock, 1%* of FRK (w/w) should be blended with normal rice stock.		

*Blending ratio may vary from a range 0.9 to 1.20%o by weight in fortified rice subject to satisfying the prescribed micronutrient level as per the CoA of FRK.

:: A N N E X U R E – IV ::

I. **List to be confirmed with Yes / No**

- Independent operational electricity connection & Meter available in Mill Premises.
- Fire Fighting equipment available and is functional.
- Mill Premises within well-defined boundary wall.
- Paddy Storage points within the Mill Premises.
- Stock earmarked by well-defined Partitions / boundaries/ fencings etc.
- Stack cards fixed on Stocks
- Stock Register of the mill available and checked.
- Stock Certificate issued.
- Whether Videography of JPV process conducted.

II. **List of Stock Details:**

- Total Paddy allocated to the mill during the season (Kharif/ Rabi crop-wise)
- CMR delivered (as per Stock Register, till Date).
- Paddy equivalent of CMR Delivered.
- CMR physically available in Mill Deposit.
- Paddy equivalent of CMR available in mill premises.
- Balance unmilled Paddy to be available with the Mill.
- Unmilled Paddy Stored at Mill (as per declaration/ census list)
- Balance unmilled Paddy/ CMR physically available.
- Any other stock of paddy/CMR found in the premises for private milling.
- If yes, variety of such paddy/CMR found.
- FRK Ordered.
- FRK Received.
- FRK Used.
- FRK Balance Quantity.
- Whether any Unaccountable Paddy (Y/N).
- Whether any Unaccountable CMR (Y/N).
